Kids at Heart a charity lunch

Anyone who does anything to help a child is a hero to me.

—Fred Rogers

At Sacred Heart Children's Hospital, our patients and their families are heroes. They persevere everyday, under the toughest circumstances and longest odds.

That's why Sacred Heart Children's Hospital and Providence Health Care Foundation are dedicated to giving all children the chance to live healthy lives, regardless of ability to pay.

Sacred Heart is the only full-service children's hospital between Seattle and Minneapolis,

caring for more than 250,000 children over the past 15 years. Our dedicated team of over 120 pediatric specialty physicians cares for the most critically ill and injured children in our region.

Since 2006, Kids at Heart has raised more than \$1.2 million—money that helped build a new 24/7 pediatric emergency center, purchase specialized equipment for our Neonatal Intensive Care Unit and pediatric cardiac patients, and launch a new mental health program for kids.

This Year's Focus

What helps Sacred Heart Children's Hospital the most? The ability to be flexible with gifts from generous donors to ensure programs, equipment and services are available to our patients at a moment's notice.

This year, money raised at Kids at Heart will go toward our Children's Miracle Network Hospitals fund. These funds stay local and allow us to meet our patients' most critical needs. Here are a few examples of CMN-funded projects:

- **The NIC View** video system allows parents and family members to bond with their new baby when they are separated because of their infant's hospitalization.

- A **portable echo machine** enables children in outlying areas to undergo critical tests locally, without having to travel to Spokane and undergo a hospital stay.

- **3-D printed models** let surgeons "practice" complex heart procedures.

- **Beads of Courage** lets children record and tell their own stories using colorful beads as symbols of courage and hope.

- **Memory Making** helps grieving families create tangible and meaningful items to remember their loved one.

- **Birthday celebrations** help make a child's hospital stay a little brighter!

\$10,000 Gold Star Sponsor

SOLD

- Logo and verbal acknowledgement of your sponsorship on all displays and printed materials at the Kids at Heart lunch
- Preferential seating for 20 guests at the lunch with logo'd table signage
- Exclusive invitation to all Providence Health Care Foundation events
